Kenmore 800 washer lid switch replacement

Look for the lid lock switch on the underside of the top panel and where it fits into the appliance. Put the lid back down and plug the washing machine back into the electrical outlet. How do I lift the lid on my Kenmore washer? Pull forward on the washer top to disengage the two locking tabs at the back, then lift off the top and set aside. Be careful that the washer door doesn't swing open while you move the top. You can now access the washer interior and tub through the top of the appliance. How do you replace the lid on a Kenmore washing machine? Use this guide to replace a faulty lid switch on your Kenmore 110 series washing machine. To avoid risk of electric shock, unplug the washing machine. Using a 5/16" socket wrench or an adjustable wrench, remove the three screws from the top rear of the washer. Lifting from the rear, remove the top panel. Where is the switch on a Kenmore washer? Locate the lid switch wiring harness on the rear of the top panel. Grasp the wiring harness connector with your fingers and pull it away from the lid switch plug. Strip a 1/4-inch of insulation from each end of your jumper wire with a pair of wire strippers. Plug the washer power cord into the wall outlet. Is there a way to bypass the Kenmore lid switch? The best way to test the lid switch is with a volt-ohm meter. If you do not have a volt-ohm meter, you can bypass the lid switch using a jumper wire to simulate the connection to the washer wiring harness. Unplug the Kenmore washer power cord from the wall outlet. How do you change the lock on a top load washer? Release the locking tab and pull the lid switch/lock assembly wire harness plug out of the receptacle on the electronic control board. Thread the lid switch/lock assembly wire harness through the hole in the back of the top panel where you released the white plastic clip. Release the tape on the lid and open the washer lid. "I love love love this app. It's so nice to have useful information (receipts, manuals, parts lists, warranty info, pictures, etc.) on all of my household appliances and devices in one place."
